The Triumphant March of Wellth

When the Indian direct selling industry started its journey in the 1990s, it was dominated by a few foreign companies whose plans and products didn't connect well with the unique demands of the diverse Indian market and the entrepreneurs who took up direct selling as a career.

One of the pioneers of Indian direct selling industry, Gautam Bali took upon himself the task of finding a sustainable solution that can empower direct sellers to experience a total transformation, both in terms of wellness and financial security. His thoughts were translated into action when Mr Bali, along with two seasoned direct selling experts, Kanwar Bir Singh and Deepak Sood, developed a robust business plan and founded Vestige in 2004, a company that brought a wellness revolution in the Indian direct selling industry.

Now, after 15 successful years of excellence, Vestige is considered a pioneer in blending wellness with financial freedom in India. Vestige is now famous for world-class wellness products and a robust marketing plan. This innovative and accumulative marketing plan of Vestige and its focus on wellness triggered the quest for Wellth; wealth earned through wellness.

Vestige is taking the gift of Wellth globally and helping people live a better life. Thousands of aspiring entrepreneurs are prospering every year through the route of Wellth and earning respect in the society.

Health Care

Being healthy is important because it can help a person have a healthy heart, better muscles, stronger bones, a sense of well-being and a better social life. Eating right and correct exercising will lead to overall better health. When exercise and healthy eating are achieved on a daily basis, people tend to feel better about themselves. While the spectrum of health problems resulting from calorie-protein undernutrition is different from the "empty-calories" overfeeding, both can have devastating consequences on both quality of life and longevity.

So, Vestige brings a range of products to fulfil the daily gap of nutrition for an individual. The range consists of health supplements for healthy immunity, cardiovascular system, glycaemic health, detox and rejuvenation, women health, fitness and for healthy bones and joints.
