## RO Water Purifier **WJ-400-W** With Disruptor Technology

Introducing SHARP Water Purifier WJ-400-W with 4 stage filtration and 5.3 litres of storage tank, exclusively presented by Vestige. Supremely clean water, whenever you need, in an aesthetically pleasing package with multiple installation options.

Certified by  
Technical Inspection  
Association (TUV SUD)\*

Certified by  
Restriction of Hazardous  
Substances Directive (RoHS)\*

\*Sharp Water Purifier is certified by TUV and RoHS Certifications (except Faucet)

# Filter Membranes

## 1 Poly Propylene Filter

Expected Filter Life\*  
6 months

Preliminary filtration that removes sand, mud, rust & suspended solids.

## 2 Carbon Block

Expected Filter Life\*  
8 months

Removes organic compounds, and chemicals including chlorine.

## 3 RO Membrane from the USA

Expected Filter Life\*  
24 months

Removes remaining heavy metals, inorganic salts and organic substances.

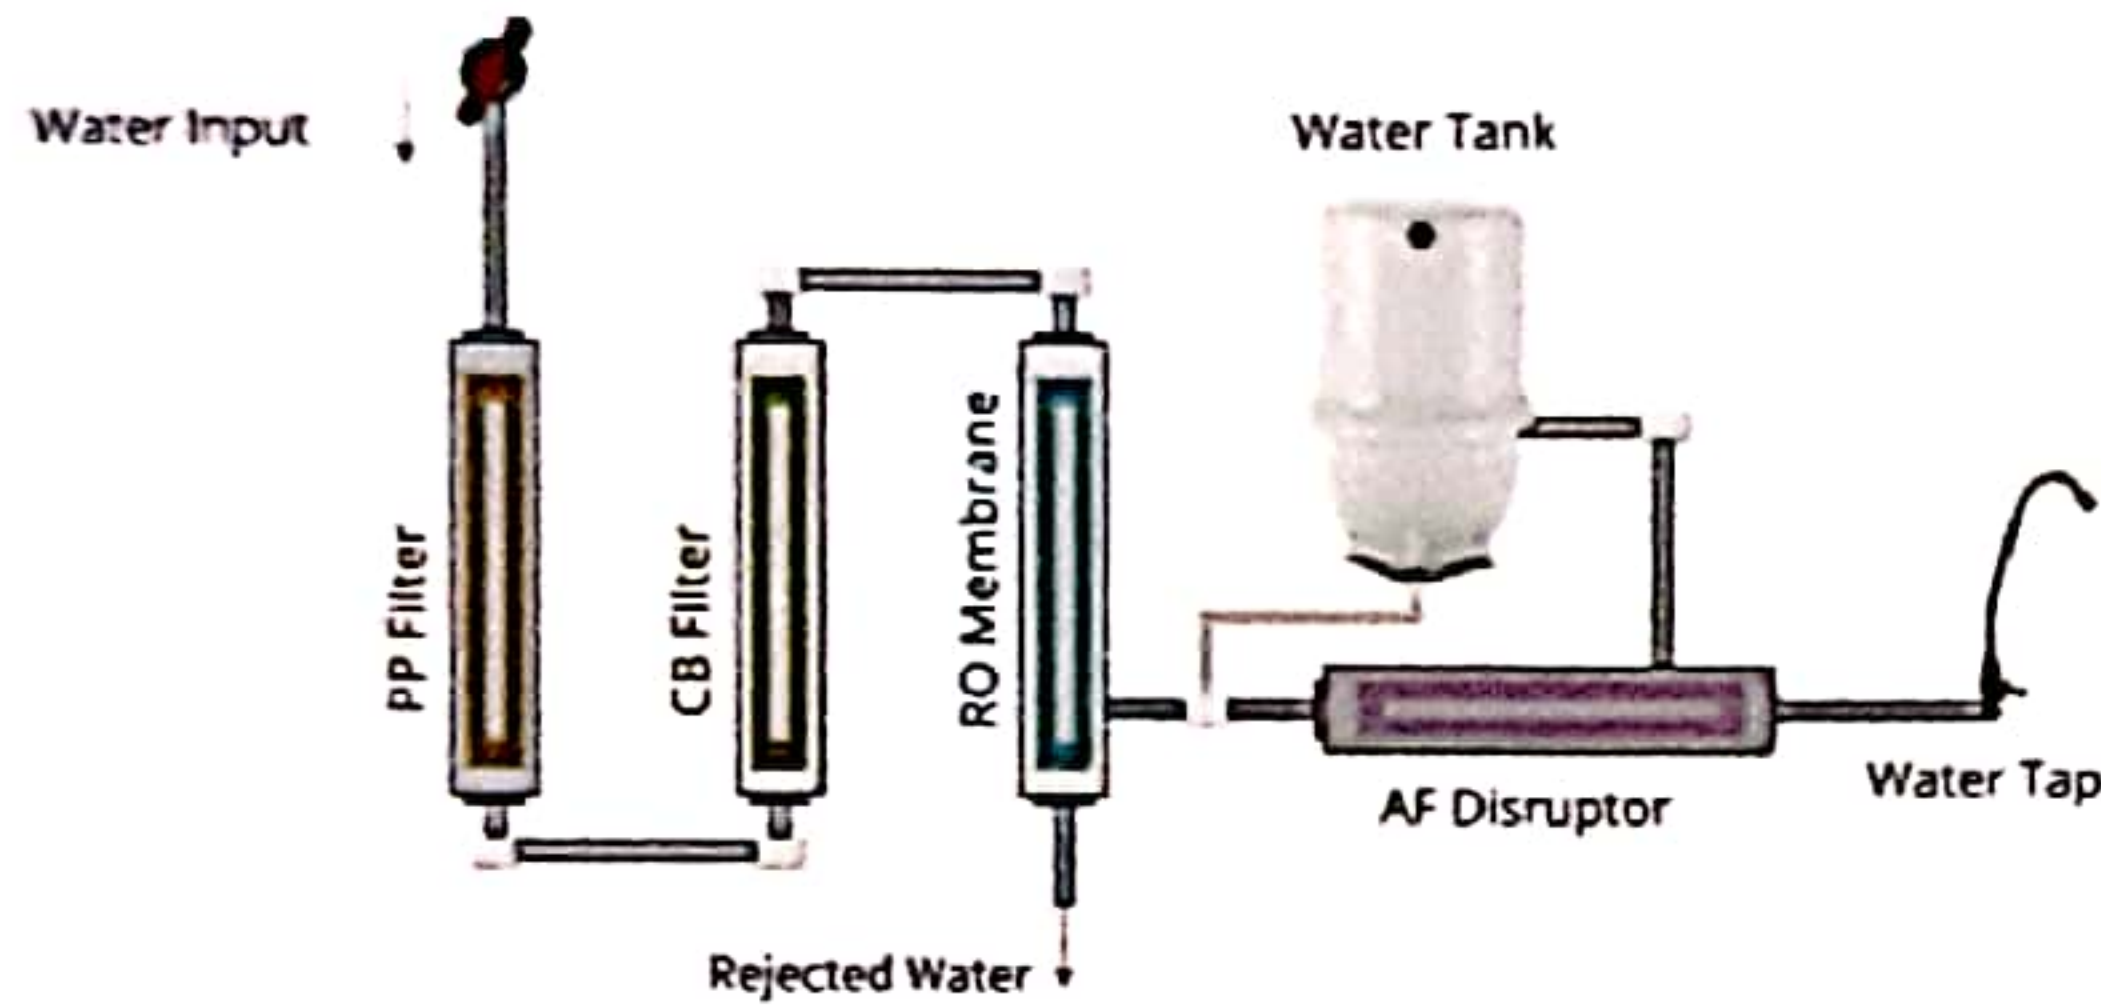

## 4 AF Disruptor

Expected Filter Life\*  
12 months

Removes cysts and bacteria from water stored in the tank using Nano Alumina fibres. Unlike Mechanical Filters, AF Disruptor Technology secures contaminants and removes them instead of simply filtering them out.

### A Closer Look at Filtration Stages

## Advantages

Cleanest Water Promise

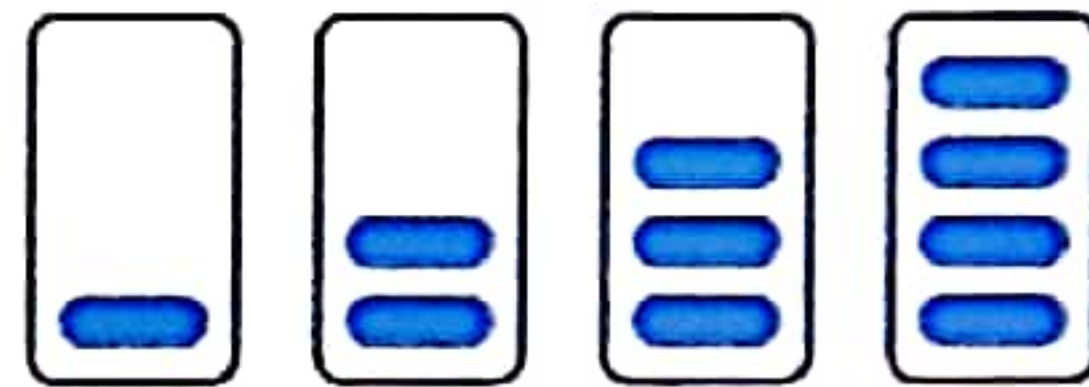

Filter Life Display Indicator

Unique Combination of Filters

High-quality Certified Materials

Multiple Installation Options

## Filter Life Display Indicator

Option of **RESETTING** the Filter Life Display Indicator if the water flow is normal

If the flow rate of water does not reduce but the display indicator shows fewer bars, you can use the buttons to reset.

However, if the flow rate of water reduces and the display indicator shows fewer bars at any point in time, it is advised to change the filter at such indication.

## Specifications

Product Description	Water Purifier Model Number WJ-400-W	SHARP's stringent design with rugged and superior build Water Purifier is meant for diverse water conditions available in India. It is the most versatile and flexible Water Purifier in India.
Type of Installations	Wall mount, table top or under sink.	Gives flexibility of installation depending upon the space available in the kitchen or any other area.
Filter Types & Description	PP + CB + RO + AF Disruptor	PP - High grade Polypropylene Filter CB - Extra heavy Carbon Block RO - Superior RO medium from the USA AF Disruptor - Unique technology that ensures cleanest drinking water without compromising on flow rate.
Inlet Water Pressure	0.03 to 0.4 MPA or 0.3 to 4 kg/cm <sup>2</sup>	Usable with overhead tank distance of 15 feet or more.
In/Out Water Temperature	5 to 38 degree celsius	Recommended normal room temperature.
Water Purification Flow Rate	With purification speed - approx. 130 ml/min (depends on inlet water pressure)	The water is purified at this rate and is stored in the tank.
Storage Tank Capacity	5.3 litres	It takes around 40 minutes to completely fill the tank.
Filtered Water Faucet	Included - can be placed on wall, wash basin or kitchen top.	In case it is installed in granite/ marble a hole of 12mm is to be made by the user.
Filter Life Indicator/ Reminder	LCD block display for each filter.	The filter indicator works on the basis of usage period. Hence in case of poor water quality, the filter may be required to be replaced earlier.
Filter Maintenance & Care	In case the Water Purifier is not used for over three days, it must be flushed before use. In case the Water Purifier is used in turbid water conditions, the PP Filter gets blocked to ensure that the Water Purifier delivers cleanest water for your family. In such cases, the PP filter must be replaced by the user immediately. In case input water contains high amount of mud or sand, it is recommended to use 5 micron Pre Filter which will enhance life of filters and other electronic parts.	
Filter Reset Function	India being a diverse country with varied water conditions, there may be instances where the Filter Indicator will turn low, but the output water quality will remain satisfactory. In such cases, the Filter Indicator may be RESET to continue using. Must not be done in case of turbid or poor water quality.	

\*Filter life may vary depending on water source, water condition and usage.

# Purity is now portable

Keep your family safe from harmful water with the portable

**SHARP WJ-100-K**  
Water Purifier Pitcher

MRP ₹ 3,200.00 *Incl. of all taxes*  
DP ₹ 2,800.00 | PV 93.33

Vestige presents  
**SHARP WATER PURIFIER PITCHER**

With five filtration stages to give you purity in every drop of water you drink

## Water Purifier Pitcher **WJ-100-K**

This pitcher purifies up to 1.5 litres of water\* with five levels of filtration, removing all kinds of impurities and giving you pure and healthy drinking water on the go.

### Five filtration stages

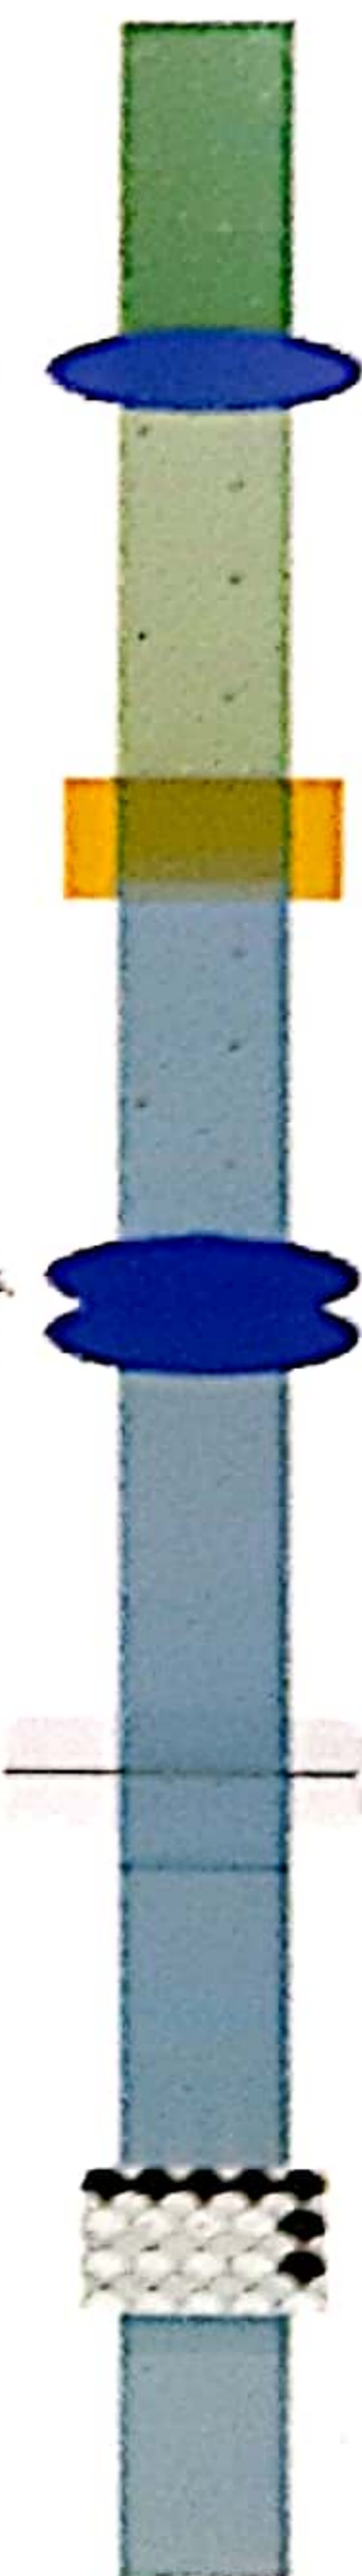

**Mesh Pre-Filter**  
Removes rust, sand, sediment and other coarse particles.

**Resin Layer-Softener**  
Reduces hardness. Also improves taste & aroma.

**Dual Mesh Filter**  
This filter removes particles & impurities, and ensures there is no leakage in the filtration material.

**Heavy Metal Remover**  
Eliminates heavy metals like lead.

**Japanese Super ACF Filter**  
Eliminates chlorine, colour, smells, chloroform and improves taste.

### Benefits

#### Eases Persistent Water Problems

If the level of **Total Dissolved Solids (TDS)** in the **input water is less than 300**, or if you are drinking water directly from the tap, then this pitcher helps you in purifying such water. However, during monsoon, it is advised that water should be consumed after filtering it using the pitcher.

#### As an Add-on Water Purifier

It can further enhance the purity of filtered water, making it more bio-available and safe.

#### Portable

We do not get access to clean water always at public places or during trips. This pitcher helps ensuring hygiene on the move.

\*This pitcher should not be used for turbid water or/and water with TDS level greater than 300.

### Specifications

Product	Service Life*	Flow Rate	Filtered Water Capacity
WJ-100-K	450 litres of water	500ml/Min	1.5 litres of input storage

\*Depends upon the water source and quality.

## Dual Purification For Complete Protection:

Sharp Air Purifier combines ACTIVE PLASMACLUSTER & PASSIVE FILTRATION to give Naturally Clean & Healthy Indoor Air.

### ACTIVE Plasmacluster Technology

Plasmacluster ions are positive and negative ions that occur in nature

- 1 Improves the quality of indoor air.
- 2 Neutralises harmful Volatile Organic Compounds & toxic gases.
- 3 Kills microbes & other contagious pathogens.
- 4 Removes static charge.

### Specifications

Model	FP-J30M
Air Purification System	Plasmacluster Ion Generator with True HEPA & Active Carbon Filter
Coverage area* (sq ft)	250
Air Flow/ CADR (m <sup>3</sup> /hr)	180 / 120 / 60
Noise level (max/med/low) (dB)	44 / 36 / 23
Modes	Haze, Low, Medium & High
Auto restart	Yes
Timer (Off)	Yes (4/8h)
Pre-filter	Standard Mesh
Filter Life*	Upto Two Years
Voltage/Frequency (V, Hz)	220-240, 50/60
Power input (max/med/low) (W)	50 / 30 / 13
Standby power (W)	0.6
Dimensions (WxHxD) (mm)	431 x 411 x 211
Net weight (kg)	4.2
Warranty	2 years onsite warranty
Filter Replacement Indicator	Yes

\* The filter life may vary according to environmental conditions, season and occupant's lifestyle  
\* Depending on fan speed & indoor environment conditions

Available exclusively through Vestige Marketing Private Limited. Warranty not applicable on units purchased from any other source including online portals.

### PASSIVE Filtration

#### High-performance HEPA filter

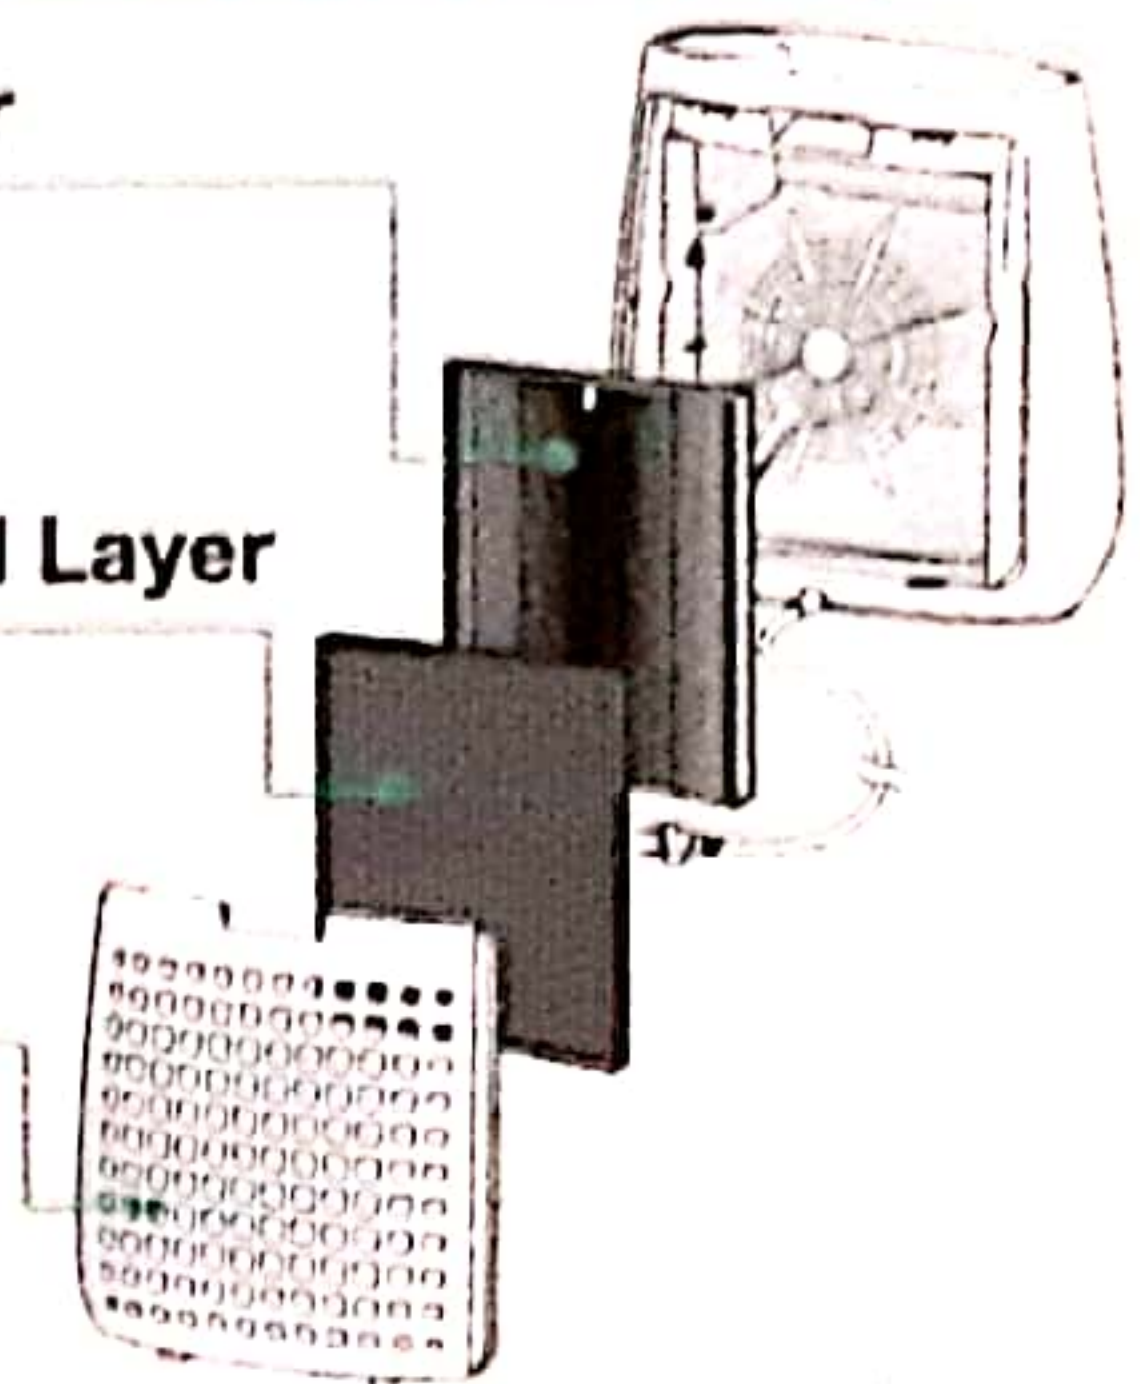

Captures 99.97% of 0.3 micron dust particles.

#### Active Carbon Filter/Charcoal Layer

Helps in removal of smoke and chemical fumes.

#### Micron Mesh Pre-Filter

Captures dust particles as small as 50 microns.

- 1 Highest Class H14 HEPA Filter (in EN1822 type).
- 2 Captures 99.97% of 0.3 micron particles.
- 3 Large surface area.
- 4 Highest CADR (Clean Air Delivery Rate)
- 5 Depending upon the usage and environmental conditions, a HEPA can last for two years.

### NO HARMFUL OZONE

Sharp's Plasmacluster ion technology does not produce any harmful Ozone during its process of air treatment. It mimics nature.

CB Certificate for Electrical Equipment  
• Japan Quality Assurance Organisation

British Allergy Foundation has made it easy to choose right air purifier, especially for people with respiratory problems. They have extensively tested & certified Sharp Plasmacluster Air Purifiers for their effectiveness in reducing Asthma & Allergy triggers.
